

Welcome
to the

Artisan soul, innovative personality

We are an international group with a presence on every continent, an extensive network of companies and an evolved industrial organisation.

But first and foremost we are a group of people with an artisan soul. We are united by our passion for perfection in every detail and by our innate determination to evolve.

We value the close relationship that we have with our customers and offer the retail sector the custom creations it needs.

We are a company of people

Our strength lies in our people.

We grow thanks to the ideas, talents and experience of the men and women who work in ARNEG production plants and commercial offices around the world.

A large red circle is positioned on the left side of the page. Inside the circle, the text "We are a company of places" is written in a red, sans-serif font, following the curve of the top edge of the circle.

We are a company of places

We are present on every continent.

We are enriched by our understanding of and respect for other cultures and traditions.

We use the knowledge of the countries where we work to offer solutions that target and satisfy their needs.

- Furnishing solutions for Supermarkets, Specialist Chains, Retail and HORECA
- Checkout counters
- Cold rooms and doors
- Service
- Energy assistance and management
- Civil construction

How we approach every project

We look to the future with the understanding that growth means responsibility. That is why we design products for the circular economy that are up to **96% recyclable**.

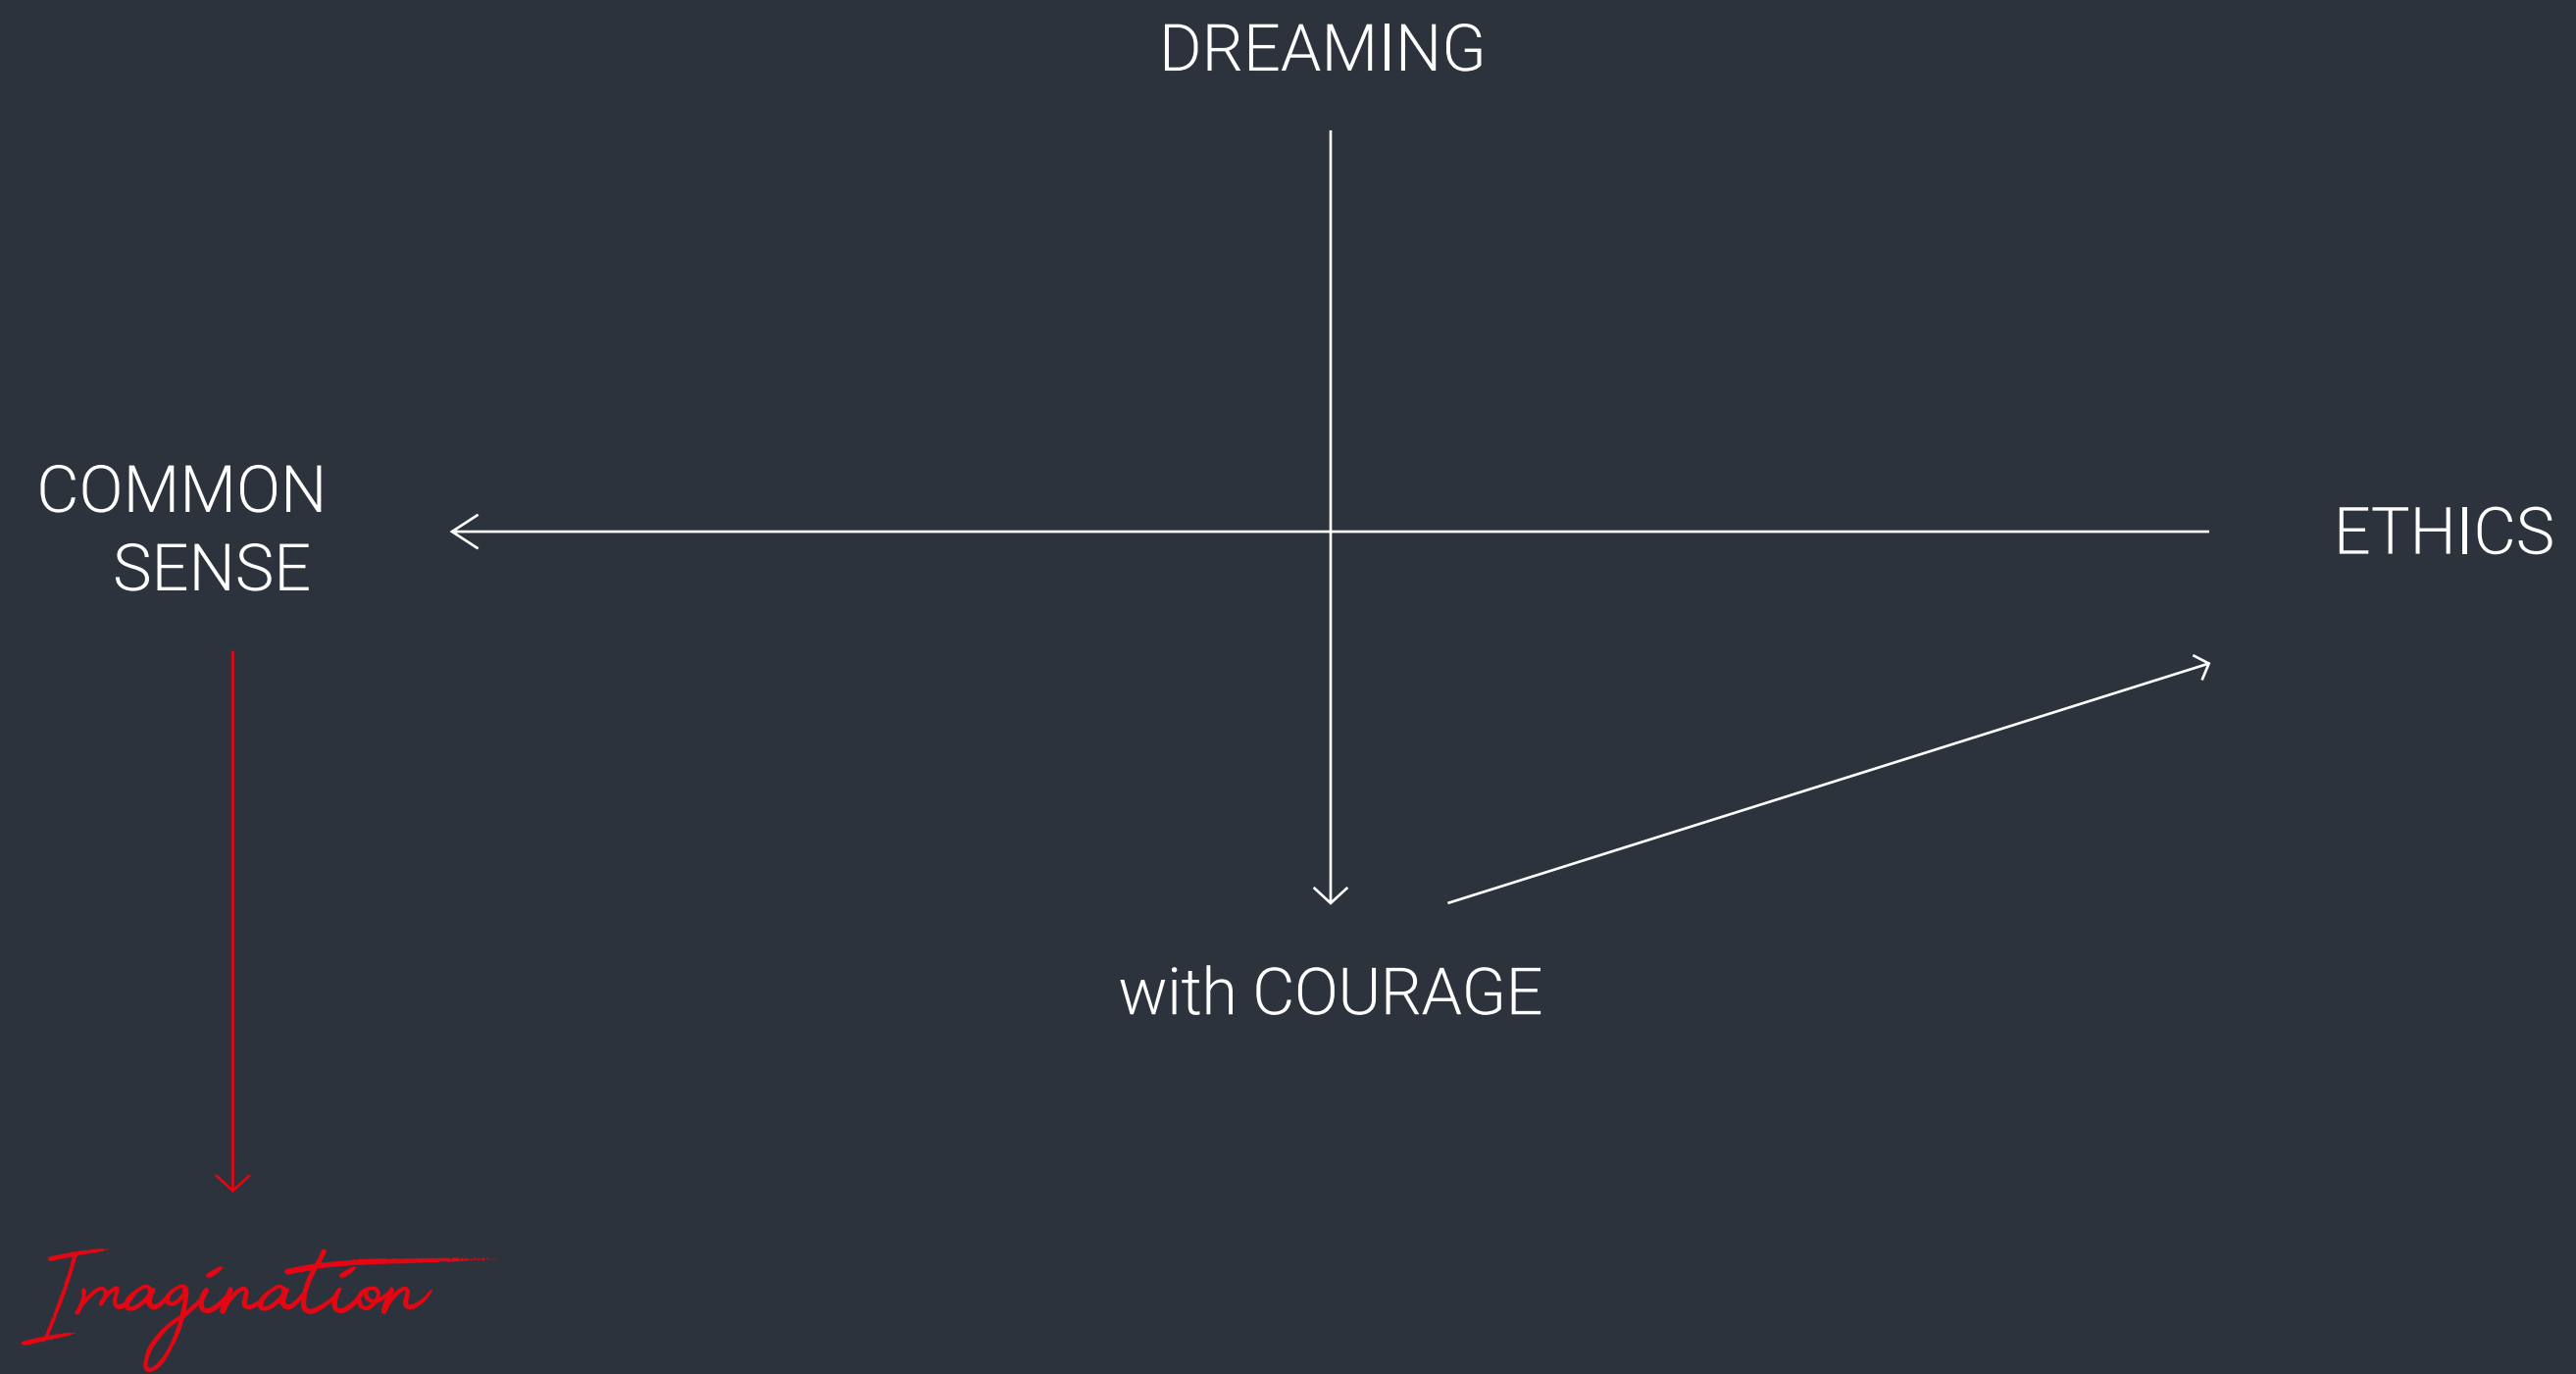

Sustainability extends to production too, with the result that we have achieved a **46% reduction in consumption** for every refrigerated display we produce.

We have always nurtured a vision

We have always nurtured a vision, to construct an organised and harmonious system dedicated to the presentation and preservation of food products and consumables, with a flair for constant innovation.

That is why we are guided in all our decisions by a clear paradigm.

“NOTHING IS
FIXED AND
UNCHANGING.
EVERYTHING CAN
BE DONE
DIFFERENTLY,
IMPROVED,
RE-INVENTED”

Maurice Peltz

You only need to dream. To dream with imagination, innovation, and a desire to create something new.

You also need the COURAGE to take a risk. The risk to make your dreams come true, even those that seem impossible.

And you need ETHICS and respect for nature and people if you are to improve the quality of life continuously.

Finally, you need COMMON SENSE to bring all this together and to create a better future.

This is Arneg's business philosophy.

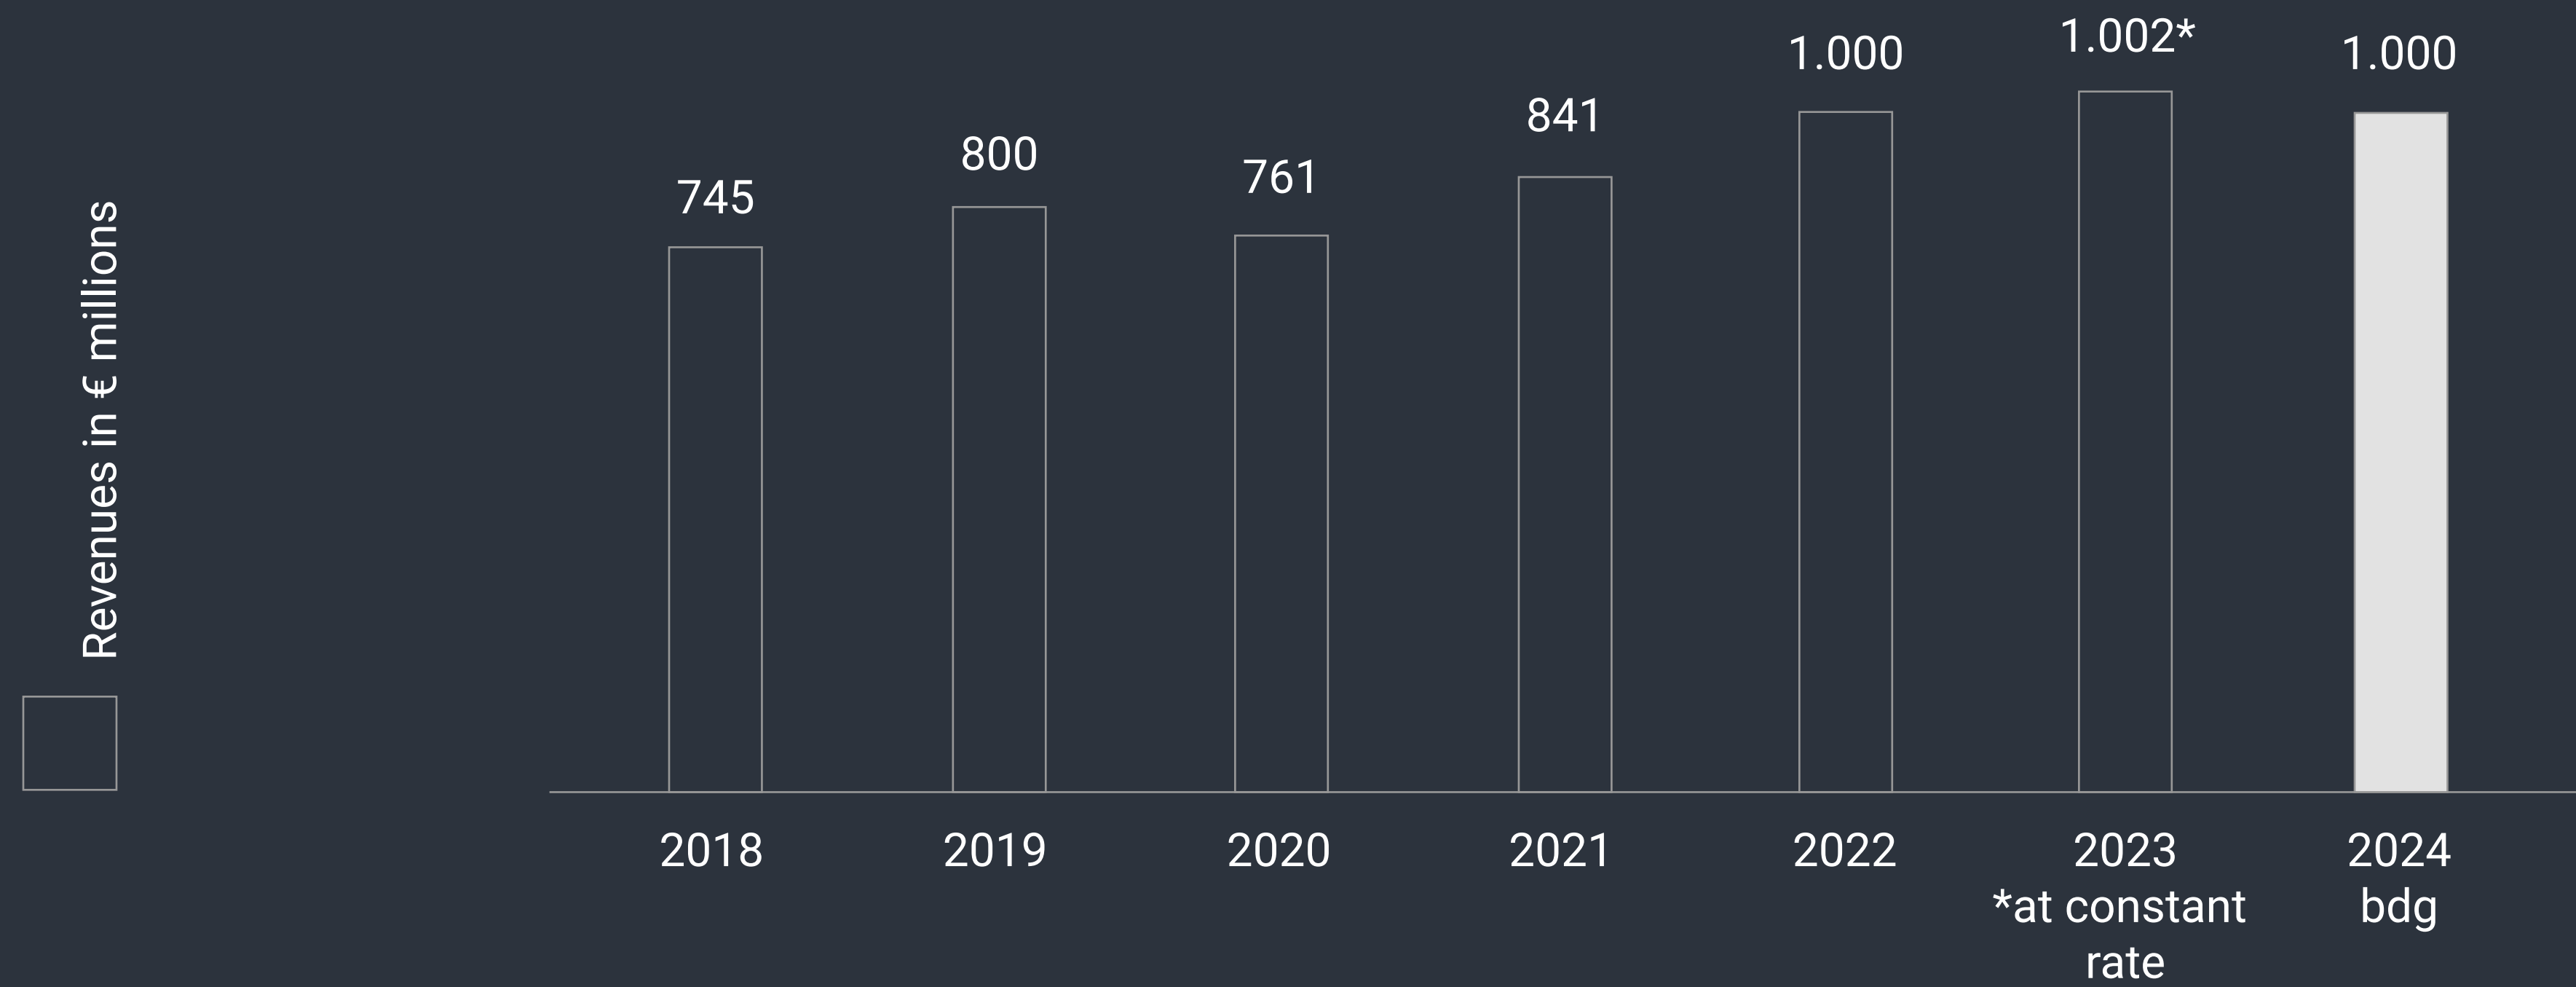

This philosophy allows us to achieve ambitious results, as illustrated by our past FINANCIAL DATA.

This is the way we have chosen to present ourselves as:

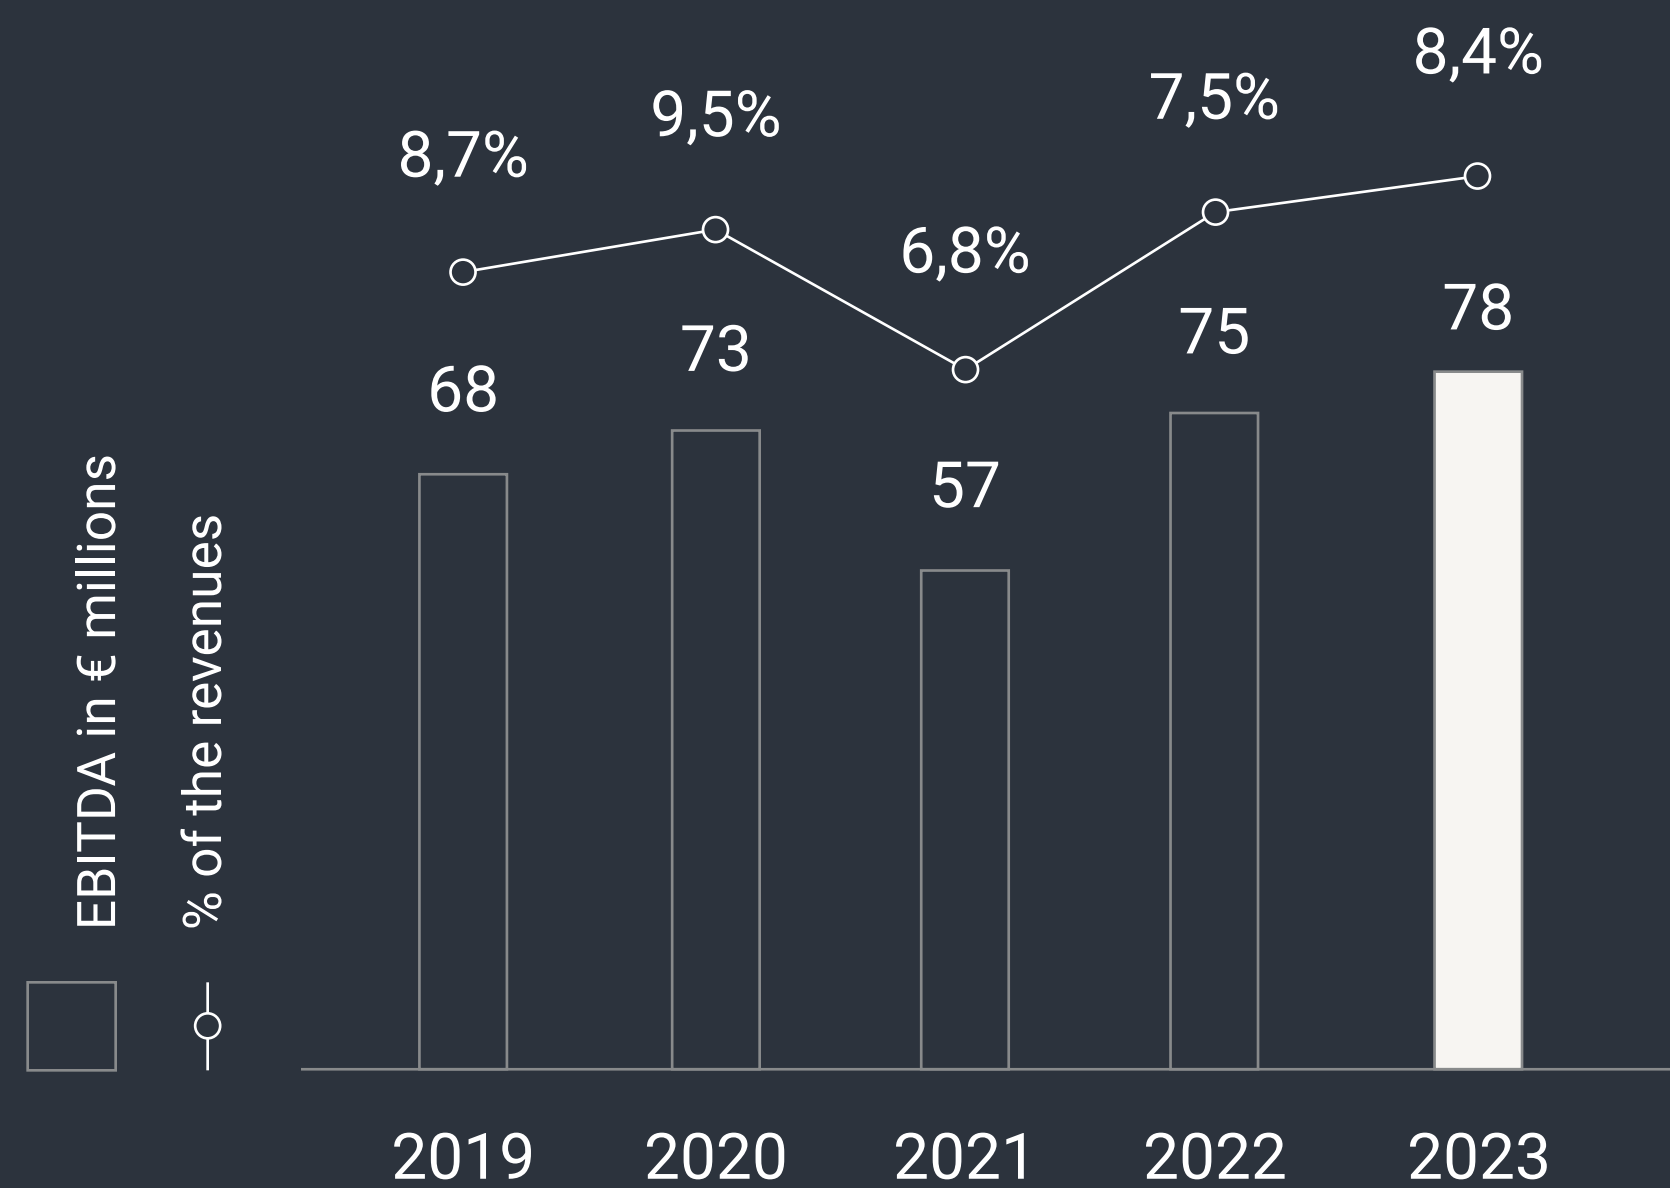

YOUR
